

TRI-BUILT® SMARTVENT™

PRODUCT DESCRIPTION

TRI-BUILT® SmartVent™ is the most versatile intake vent solution available. Constructed of durable polyethylene, SmartVent is lightweight, nail gunnable and offers a continuous venting area that can be used all the way up the roof from eave to ridge.

FEATURES

- Use on eaves, mid-roof, off-wall, shed-wall, off-peak, dormer & valley
- Intake or exhaust for all climates
- 9 square inches of NFA per linear foot (18 when used on both sides)
- Tapered for a natural look
- Fabric mesh guards against rain and snow infiltration

MODEL TRISV1
ITEM NUMBER 692790

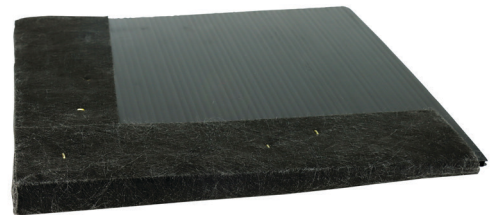

TRI-BUILT® SMARTVENT™ END CAP

PRODUCT DESCRIPTION

TRI-BUILT® SmartVent™ End-Caps provide a smooth transition for the TRI-BUILT SmartVent™ when running into any obstruction or obstacle on the roof, such as vent pipes, dormer walls, hips, valleys or skylights.

FEATURES

- Provides a perfectly tapered end to TRI-BUILT SmartVent™
- Eliminates the need to fabricate end caps on the job
- Fabric mesh guards against rain and snow infiltration
