

TRI-BUILT® STEEL PLATES

PRODUCT DESCRIPTION: TRI-BUILT[®] Steel Plates are made of Galvalume[®] coated steel. The round design provides an even distribution of loads and eliminates sharp corners that can damage the insulation or membrane. TRI-BUILT[®] 2" plates are used for lap seam fastening. TRI-BUILT[®] 3" plates are for fastening insulation. These plates are designed to be used with TRI-BUILT[®] roofing fasteners.

APPLICATION: Seam Plate: Used for attaching single-ply membrane to the substrate. Use with TRI-BUILT[®] Standard #12 or Heavy Duty #14 fasteners.

Barbed Seam Plate: Used for attaching single-ply membrane to the substrate. Use with TRI-BUILT® Standard #12 or Heavy Duty #14 fasteners.

Insulation Plate: Used for attaching insulation to the substrate. Use with TRI-BUILT® Standard #12, Heavy Duty #14 or Extra Heavy Duty #15 fasteners.

PACKAGING: TRI-BUILT[®] Steel Plates are available in boxes of 100 or in bulk quantity buckets of 1,000.
