

TRI-BUILT® TERMINATION BARS

PRODUCT DESCRIPTION: TRI-BUILT® Termination Bar is designed to terminate single-ply membrane at parapet walls and other penetrations. Use the TRI-BUILT® Heavy Duty Fastener or Masonry Anchor to secure the termination bar.

TRI-BUILT® Termination Bar is made of extruded aluminum (6063 T6 alloy) with a mill finish. Oval holes that measure $\frac{1}{4}$ " x $\frac{3}{8}$ " are punched into each bar, with standard 6" on center (o.c.) spacing. TRI-BUILT® Termination Bar can be made to order with special hole spacing.

All TRI-BUILT® termination bars come in 10-ft. lengths, and are packaged in tubes of 50 (500-ft. total). There are 10 tubes/pallet or 5,000-ft.
